

# Theme Settings for the Bytes Week Wise Messages App

*This document provides the necessary information about the theme settings required to enable the Bytes Week Wise Messages App on your Product Detail page.*

# Steps for app block (Shopify 2.0 theme)

## Step 1

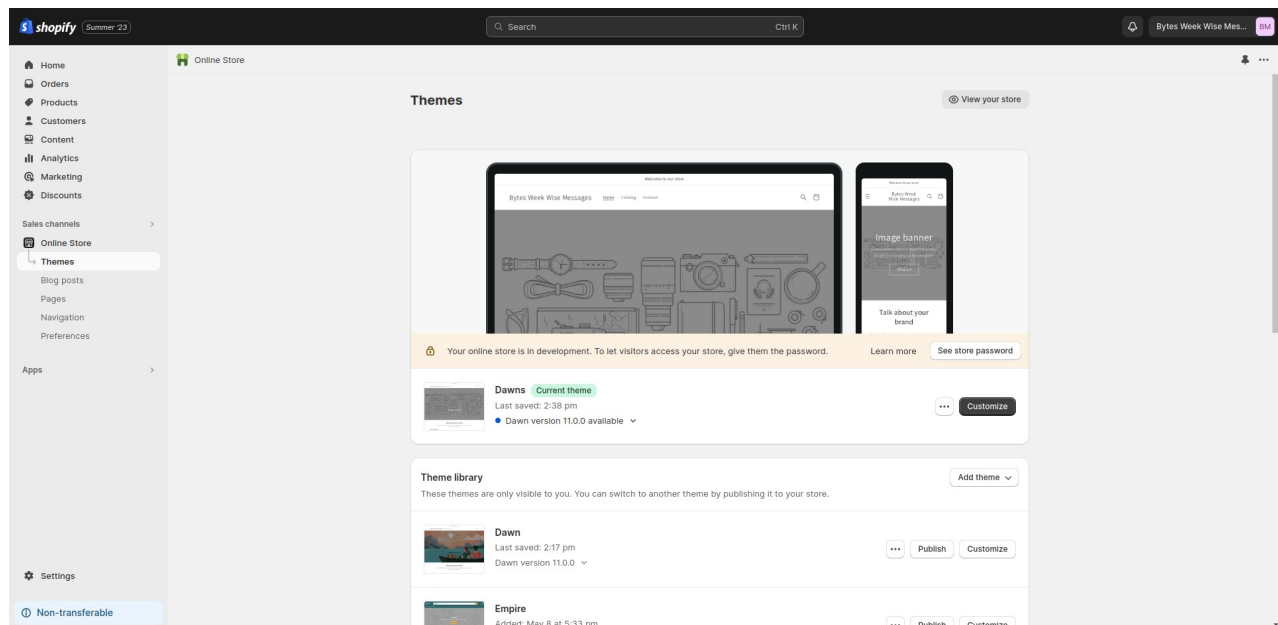

Login into your store as an Admin user.

## Step 2

Click on the *“Themes”* link under the Online Store option from the left sidebar. You will be able to see the list of themes as well as the current Live theme of your store.

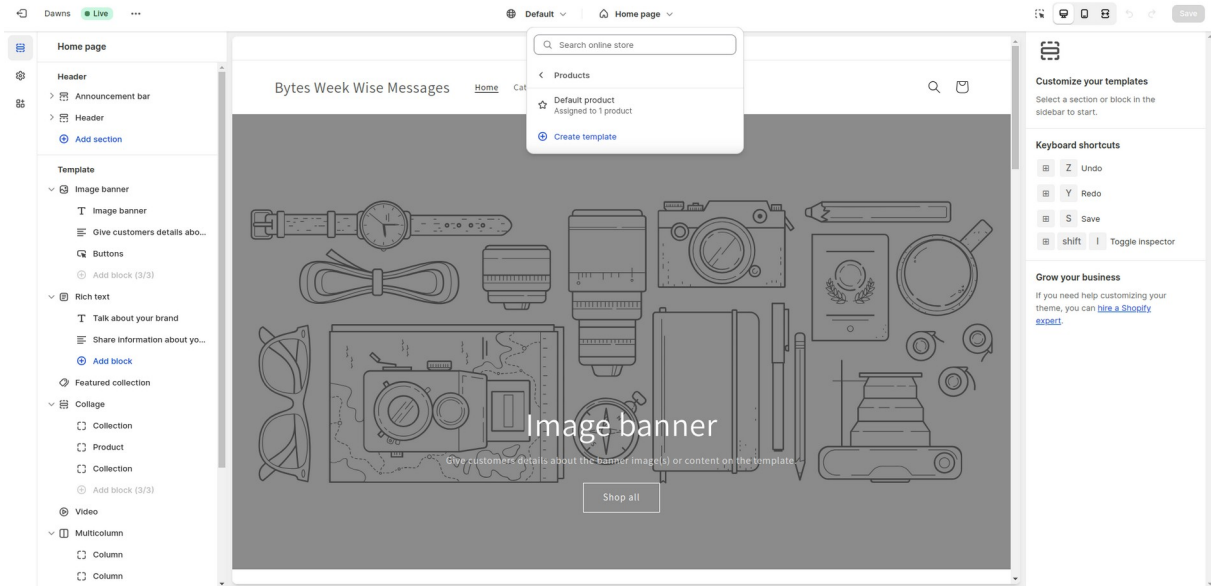

## Step 3

At this point, you can proceed to make changes to the Live theme. Click on the *“Customize”* button. It will redirect you to the theme-related settings page.

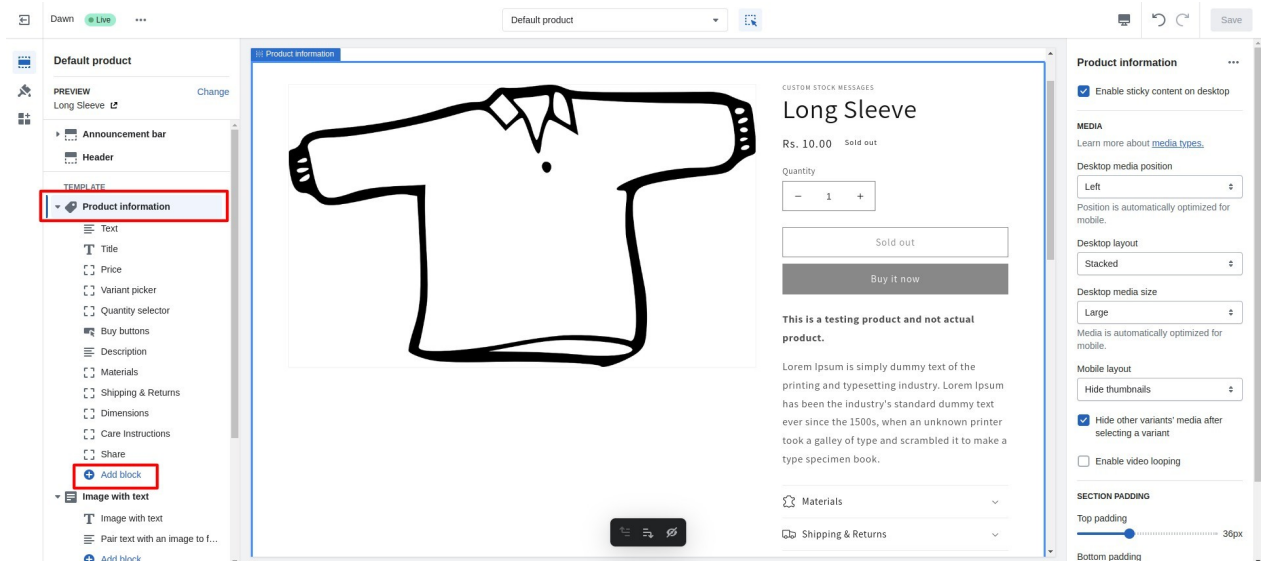

## Step 4

Now select the *"Default product"* page option from the top middle select box as shown below. It will open the product detail page settings.

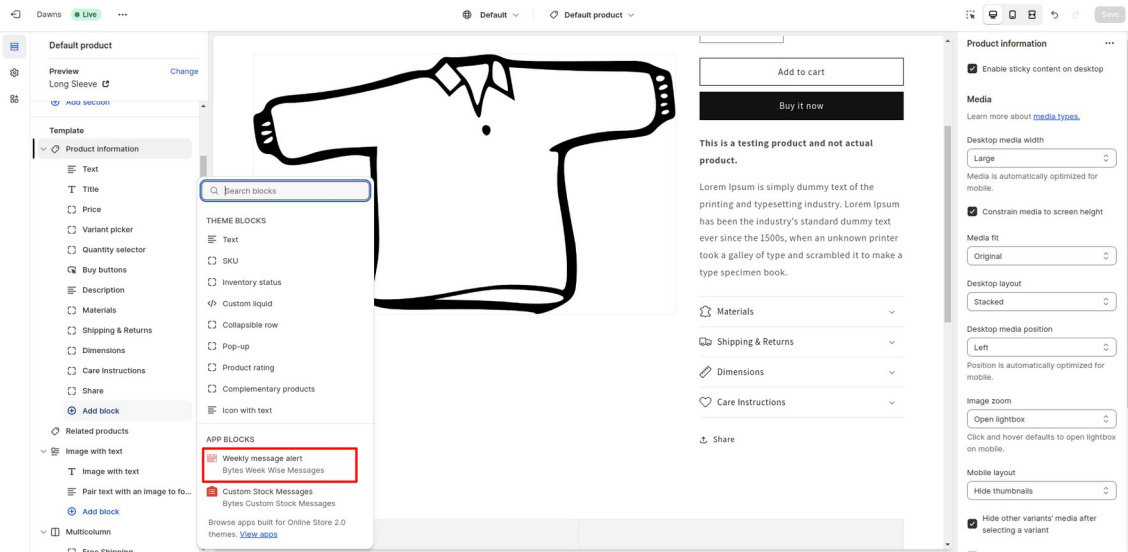

## Step 5

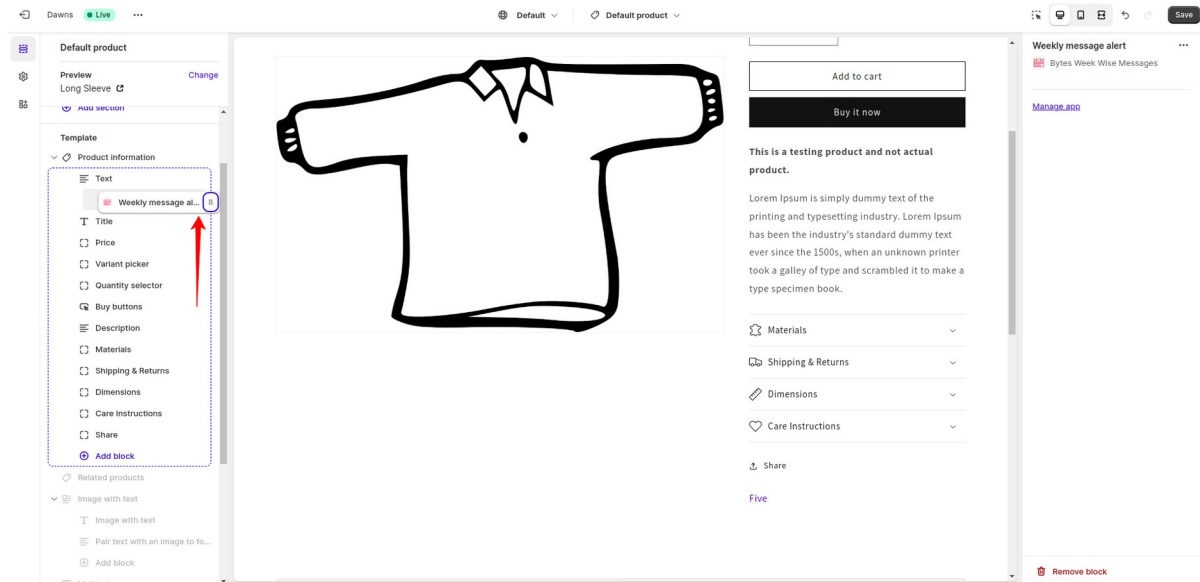

Click on the *"Add block"* link under the *"Product information"* option. It will open different options to add in this section like theme blocks, Apps, etc...

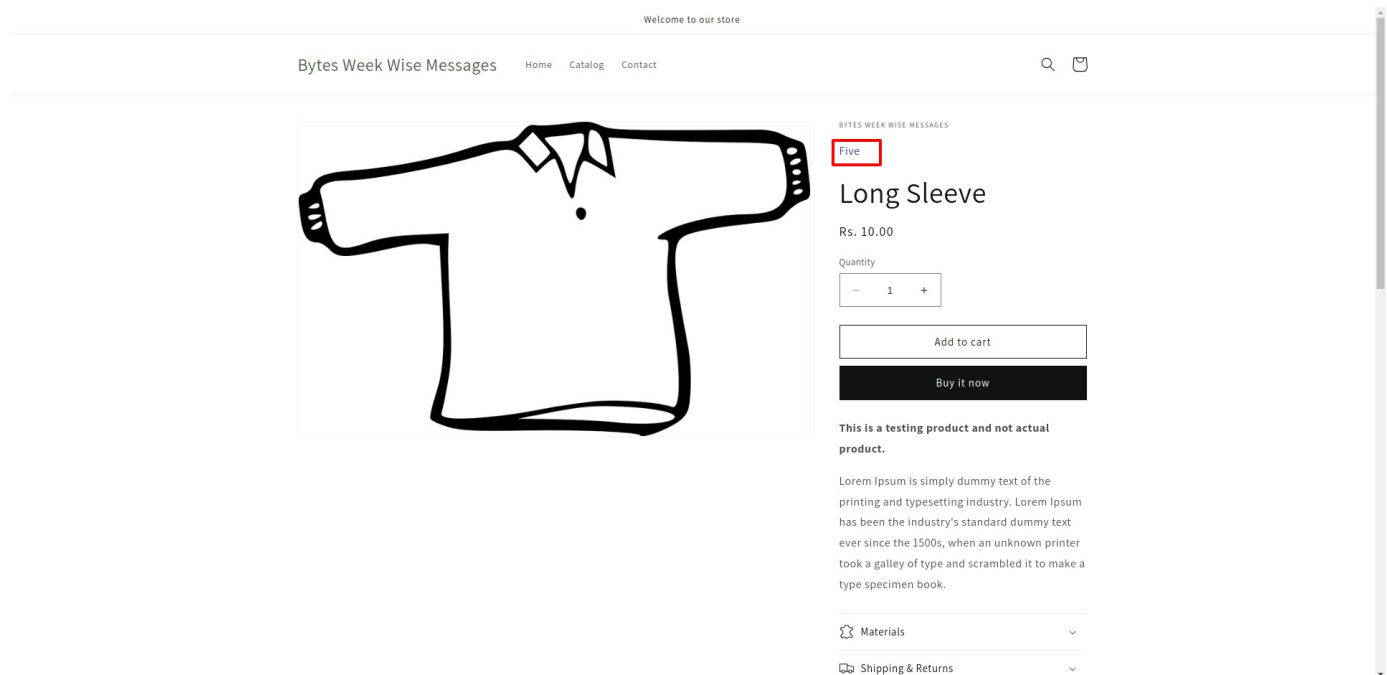

You will see the [Bytes Week Wise Messages](#) App under the Apps section. Click on it to select and press the **“Save”** button from the top right corner.

You can change the position of the section where the App will display the message by simply dragging the [Bytes Week Wise Messages](#) option as shown below:

After changing the position, you can press the **"Save"** button from the top right corner and you're done with the theme settings required for the **Bytes Week Wise Messages App**.
